Office Action Summary	10/814,004 Examiner	Art Unit				
•		2854				
The MAILING DATE of this communication app	Eugene H Eickholt					
Period for Reply	ears on the cover sheet with the c	orrespondence address				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status

Application/Control Number: 10/814,004

Art Unit: 2854

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 4, 9, 12, 13, 15 and 17-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Mathis.

Die face 3 reads on the first embellishing surface and sides 7 reads on the second embellishing surface. See figs. 4-5 and col. 3, lines 5-6 concerning the die face facing away corresponding to or being similar to the die face 3. This face 7 is said to be the same at col. 3, lines 29-31 which anticipates claims 4 and 15. Die faces 3 and 7 are shown on opposite sides which anticipates claims 2 and 13. Regarding claim 9, col. 4, lines 58-59 teach the die body itself may be a metal strip".

Claim 12 calls for a press. Column 9, lines 53-56 teach use of a hard roller 23 as a press which anticipates claims 12 and 17. Regarding claim18 which calls for a deformable elastic pad between the media and the press, roller 23 reads on the press and pad 8 (shown in Fig.2) on the pad See col. 8 lines 11-18.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim s 10-11 are is rejected under 35 U.S.C. 103(a) as being unpatentable over Mathis.

Application/Control Number: 10/814,004 Page 3

Art Unit: 2854

Mathis at col. 4, lines 58-59 teaches the die body may be of metal. Steel and aluminum are commonly known metals, steel for its strength and aluminum for its light weight. Steel is obviously suggested as a well known magnetic metal and aluminum as a well known non-ferrous magnetic metal. It would have been obvious to select either steel or aluminum as the metal to be used with Mathis as a matter of design choice amongst well know metals.

Claims 3, 5-8, 14, 16 and 19-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 23-29 stand allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. A shortened statutory period of 3 months is set to respond.

Eickholt/ds
